DETAILED ACTION

Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 8-10, 13, 15-17, 23, and 24, drawn to a method to inhibit p38 activity by the compound of formula (1) wherein Z3 is N, Z5-Z8 is CR2, classified in class 514, subclass 266.1.
 - II. Claims 1, 8-10, 13, 15-17, and 23, drawn to a method to inhibit p38 activity by the compound of formula (1) wherein Z3 is N, one of Z5-Z8 is N and the rest is CR2, classified in class 514, subclass 254.1.
 - III. Claims 1, 8-10, 13, 15-17, and 23, drawn to a method to inhibit p38 activity by the compound of formula (1) wherein Z3 is N, two of Z5-Z8 are N and the rest is CR2, classified in class 514, subclass 262.1.
 - IV. Claims 1, 8-10, 13, 15-17, 23, and 24, drawn to the methods of use not included in Groups I-III, classified in classes and subclasses depending on the nature of the ring structure.
 - V. Claims 18-20, 25-33, drawn to the composition of the compound of formula (1) wherein Z3 is X; Z5-Z8 is CR2, classified in class 514, subclass 266.1.

Application/Control Number: 09/972,582

Art Unit: 1624

- VI. Claims 18-20, 25-32, drawn to the composition of the compound of formula (1) wherein Z3 is **3** one of Z5-Z8 is N and the rest is CR2, classified in class 514, subclass 254.1.
- VII. Claims 18-20, 25-32, drawn to the composition of the compound of formula (1) wherein Z3 is \$\infty\$ two of Z5-Z8 are N and the rest is CR2, classified in class 514, subclass 262.1.
- VIII. Claims 18-20, 25-32, drawn to the compositions not included in Groups V-VII, classified in classes and subclasses depending on the nature of the ring structure.

The inventions are distinct, each from the other because of the following reasons:

Groups I-IV are directed to the methods to inhibit p38a with structurally dissimilar compounds such that the variable core created by varying the definitions of the formula do not belong to a recognized class of chemical compounds in the art, and references anticipating one invention would not render obvious the others, for example, a method of inhibition of p38a kinase using quinazoline derivatives is different from a method employing, say, pridylpyrimidine. In addition, separate searches in the literature as well as in the U.S. Patent Clarification System would be required. Each group's compounds are made and used independently of each other and could support separate patents. The compounds differ significantly in chemical structures. One skilled in the art would not consider such diverse structures as functional equivalents of each other. The mere fact that there is a single similarity is not in itself a significant reason to render the

Art Unit: 1624

whole embodiment obvious. The separation of the composition claims is based on the same reasoning given above.

A telephone call was made to Ms. Kate Murashige on 06/27/02 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Tentative election of a single species with the elected group is further required.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Any inquiry concerning this communication should be directed to Examiner Hong Liu whose telephone number is (703) 306-5814. The examiner can normally be reached on Monday through Friday from 8:30 AM to 6:00 PM. If attempts to reach the examiner by the phone are unsuccessful, the examiner's supervisor, Mukund Shah can be reached at (703) 308-4716. The fax phone number for this group is (703) 308-4734 for "unofficial" purposes and the actual number for official business is (703) 308-4556. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose number is (703) 308-1235
